## FULL-FEATURED 24-HOUR SURVEILLANCE, SUPERB COST PERFORMANCE.

The new WV-CP250 Series from Panasonic combines full-featured 24-hour surveillance with hard-to-beat economy.

The WV-CP250 Series features Day/Night operation that automatically switches the camera from full colour operation to the black-and-white mode when illumination levels drop, which makes the unit ideal for 24-hour surveillance applications. Additional performance features include a horizontal resolution of 480 lines in colour and 570 lines in black-and-white; 50dB signal to noise ratio; an F1.4 lens perfect for low light applications; minimum illumination of only 1.0 lux in colour, and 0.15 lux in black-and-white; Back Light Compensation (BLC), Aperture Correction, Automatic Gain Control (AGC), and Automatic Tracing White Balance (ATW).

The WV-CP250 Series is the high-performance, cost-efficient choice for a wide range of CCVE applications.
